

We're making some changes in Webster to serve you better.

Our Webster office is now fully staffed Monday – Friday in primary care with two new physicians (Dr. Levenson and Dr. Mandala) and two nurse practitioners (Wanda Pothier and Paula Sommers). Plus another new Internal Medicine physician, Dr. Mark Tarantan, will be joining us in August 2010. To handle your specialty care needs we provide:

- General Surgery
- Urology
- Obstetrics and Gynecology
- Cardiology
- Eye Services and Optical Center
- Lab/EKG
- Diabetes Education

Free Medi-Van Service

To assist any Fallon Clinic patients who may need to travel to Worcester for specialty or diagnostic services, we are now providing **free**, roundtrip Medi-Van service with wheelchair access.

- No-cost transportation helps you save on gas
- A friend or family member may accompany you at no charge
- Easy to schedule when you book your appointment

This convenient weekday van service allows you to easily take advantage of the state-of-the-art diagnostic and specialty care services available at our Worcester facilities. Call (508) 671-4050 for more information.

MyChart lets you connect to your doctor from your home computer

Thanks to our advanced electronic health record system, we can now offer you a secure online connection to your doctor's office using MyChart. This powerful new web-based tool allows you to:

- Email your doctors
 - Request appointment times and prescription renewals
 - See information on recent and upcoming visits
 - View lab results and portions of your medical record
- ...and much more.*

For Fallon Clinic patients, MyChart is available online, anytime you wish. Signing up is easy – just visit your Primary Care Physician's office and ask to fill out a MyChart registration form. We will then provide a printout with all the information you need to start using MyChart.

At Fallon Clinic in Webster, we're striving to give you care and service that truly meets your needs. Have a question? Please call (508) 671-4050.
